

ACME COMPONENTS (FICTIONAL SAMPLE)

Thick Film Chip Resistor - 0805 Package

Part Number: ACM-R0805-103J Standard: EIA 0805 (2012 metric)

NOTE: Synthetic sample for tool testing only - not a real product.

Dimensions (millimeters)

Symbol	Description	Min	Nom	Max
L (D)	Body length	1.90	2.00	2.10
W (E)	Body width	1.15	1.25	1.35
H (A)	Body height (seated)	0.45	0.50	0.55
t	Terminal (end-cap) width	0.25	0.40	0.55

Construction & Handling

- Termination: two metallized end electrodes (chip, no formed leads).
- Polarity: non-polarized; may be placed in either orientation.
- Top surface: flat (suitable for vacuum nozzle pickup).
- Weight: approx. 0.004 g per piece.
- Packaging: 8 mm carrier tape, 4 mm pocket pitch, 7-inch reel.
